Palgrave Macmillan. Hardcover. Book Condition: New. Hardcover. 456 pages. An accessible collection of essays about one of the most dramatic moment in Frances modern history: the event of 1968. Often seen purely as a student revolution, the events of 1968 in fact impacted on almost every aspect of French society theatre, film, gender relations, sexuality, race and immigration, farmers, workers. This volume of essays, written by young researchers and established scholars from France, Britain and the United States is the only book in English to explore the full diversity of this extraordinary upheaval. It takes us out of Paris to the regions of France, out of the student Latin Quarter into the factories, and shows how the events of 1968 continued to reverberate throughout the next decade, and how their legacy is still highly contested in France today. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Hardcover.
