Excerpt: . . . 11 Each of these prevention trials will cost 25 to 30 million, and we need to start them as rapidly as targets are identified. The National Institute on Aging is leading efforts to try to find a way to do these prevention trials faster and at less cost. Which brings me to the fourth part of the strategy - the search for biomarkers that may allow us to see evidence of disease and to monitor its progress without having to wait for evidence from cognitive test-ing. That is the goal of NIAs proposed imaging initiative. It would serve two pur-poses: first, to find better treatments faster and second, to provide accurate earlier diagnosis. It is the first of these that holds the most immediate and exciting prom-ise. In current prevention trials, we have to follow people for years until cognitive testing can demonstrate whether...
