

Invisible: The Dangerous Allure of the Unseen

Filesize: 2.58 MB

Reviews

This pdf is indeed gripping and interesting. It is definitely simplistic but shocks within the 50 percent of your book. Once you begin to read the book, it is extremely difficult to leave it before concluding.
(Michael Spinka)

Chicago. 1 Cloth(s), 2015. hard. Book Condition: New. If offered the chanceby cloak, spell, or superpowerto be invisible, who wouldn't want to give it a try? We are drawn to the idea of stealthy voyeurism and the ability to conceal our own acts, but as desirable as it may seem, invisibility is also dangerous. It is not just an optical phenomenon, but a condition full of ethical questions. As science writer Philip Ball reveals in this book, the story of invisibility is not so much a matter of how it might be achieved but of why we want itand what we would do with it."A former editor at Nature and the author of 19 previous books (he should write about that superpower), Ball leads us on a very fun, largely chronological journey through invisibility, beginning with myth and early magicians, ending with quantum physics, and stopping along the way at Newton, Leibniz, microscopy, photography, spiritualism, B movies, and science fiction. He is lucid and interesting on every topic he touches, from the ghost in Hamlet to those unseen extra dimensions posited by string theory."The New Yorker 320.
