

An Outline of Lecture Notes on General Chemistry (Classic Reprint)

By John Tappan Stoddard

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from An Outline of Lecture Notes on General Chemistry This little volume is not intended to take the place of the student's notes, but simply to serve as a basis of notes to be taken on a first course of experimental lectures on general chemistry. By its use the student will be relieved from the most irksome and least valuable part of his note-taking, and left free to give closer attention to the lecture and its accompanying experiments. In this edition the text has been carefully revised and some new matter added to the appendix. To those who have found the book useful in the past, it will, I trust, prove still more helpful in its revised form.
