Filesize: 5.05 MB

### Reviews

*This pdf might be well worth a study, and a lot better than other. It really is simplistic but excitement inside the fifty percent in the book. Its been printed in an exceedingly straightforward way which is just after i finished reading this ebook through which really modified me, modify the way i believe. (Derick Brekke)*

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1905 Excerpt: .warrant a continuance of the investigation as originally planned. As a result the investigation herein reported concerned itself chiefly with a study of some of the factors that have been reported as influencing the water content of butter. The melting point and keeping quality have received attention only as a secondary matter. Plan of Investigation.--In the first twelve experiments, a can of cream was equally divided between two 10 gallon churns, one lot in each experiment being churned and worked in a normal manner; the other being treated as described in the text which follows. The working was done on a Mason butter worker, each lot of butter receiving the same number of revolutions of the worker. In all of the remaining experiments the cream was churned in an A 2 Victor combined churn and worker. The butter was worked uniformly four minutes, except in special cases of which mention is made later. In all of the experiments as soon as the butter was made, one pound samples were secured with a one pound butter printer. These samples were carefully wrapped in parchment paper which had been removed from a brine solution fifteen minutes previous to wrapping. They were next wrapped in paraffined, paste-board butter boxes, after which they were taken directly to the chemical laboratory where they were analyzed according to the methods adopted by the Association of Official Agricultural Chemists. The experiments were conducted during the months of January, February, March and April. With...
