By Chris Mumford

The Joe Startup Plan is written as an un-business business book where we minimize the business mumbo jumbo. While many existing books help readers learn the concepts of entrepreneurship, this book teaches how to actually do entrepreneurship. Joe Startup is an easy-to-use startup plan creator. This book will help new and experienced entrepreneurs manage the process of generating lots of fuzzy ideas and crystallizing one into a streetsmart plan. Small business owners can use Joe Startup to develop a comprehensive plan to create opportunities. Finally, professors and students can use Joe Startup as the practical companion to academic entrepreneurship texts. The book's content is not intended to be exhaustive, but distilled to the essentials. In other words, the content is the streetsmart advice an experienced mentor would give an entrepreneur. The book is broken down into six processes: Dream, Think, Create, Tell, Sell and Run. There are 26 step-by-step modules. Each lesson includes an introduction, examples, insights, instructions, and templates. QR codes can be scanned to watch a video online or use online templates....
